UNITRENDS
A Kaseya COMPANY

It's no secret that most small IT teams don't have the resources for specialized personnel. Every member of these internal IT teams must be multifunctional and utilize a diverse toolset to meet the fast-paced, ever-changing demands of the business landscape. They literally have to DO IT ALL, toggling between multiple applications and tools.

Limited by small budgets, but driven by businesses with big dreams, today's small and midsize business (SMB) IT teams are expected to DO MORE WITH LESS.

KASEYA'S IT COMPLETE IS BUILT SPECIFICALLY FOR THAT PURPOSE, WITH EVERYTHING YOU NEED TO GET THE JOB DONE IN ONE PLACE. NO MORE WORRYING ABOUT BEING OVERWORKED, UNDER-RESOURCED, UNDER-FUNDED AND UNDER-APPRECIATED — IT COMPLETE WILL "GET IT DONE" FOR YOU!

IT Complete — Networking, RMM, Security, Backup & DR, Audit, Compliance, PSA, Documentation, MSP Enablement

SOLUTION SUITES

Purpose-built for multifunctional IT pros, IT Complete comes with a robust yet simple set of tools. From complete endpoint management to the latest in security and compliance, you can get IT done efficiently, effectively and for less.

RMM/ENDPOINT MANAGEMENT

Seamlessly manage the increasing number and complexity of endpoints in today's small businesses with a modern RMM. Change the landscape of endpoint management by enabling a single technician to manage it all with efficiency, speed and built-in control.
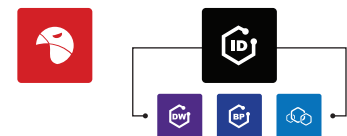

SOLUTION

SECURITY

Safeguard your business from phishing, ransomware, malware, dark web threats and social engineering tactics with affordable and effective tools. Stop breaches before they occur and reduce the burden on your overworked IT teams.

SOLUTIONS

BACKUP AND DISASTER RECOVERY

Sometimes, the best defense is the rewind button. Backup and disaster recovery provides a way to undo worst-case scenarios while also protecting your business's critical data.

SOLUTIONS

AUDIT

A lack of information and/or audit ability leads to most IT staff failures. Prevent such oversights with a proper vision of managing all services and reports to demonstrate your value to the business.

SOLUTION

RFT

COMPLIANCE

Data protection regulation has burdened businesses and their IT service providers. Automate IT to reduce risk, complexity and costs associated with IT compliance and information security.

SOLUTION

PSA/SERVICE DESK

Manage your work queue from a single console with a modern and intuitive platform. Get an error-proof, automated solution to make task management easier.

SOLUTIONS

NETWORKING

Deliver powerful wireless networks, optimized coverage and seamless roaming via cloud-managed Wi-Fi access points. Simple, automated switching seamlessly connects devices and users across a network.

SOLUTION

d

IT DOCUMENTATION

Retrieve and retain critical information without leaving the task you're currently doing via a deeply integrated IT Documentation Service. Get structured documentation with enterprise-grade security at your fingertips.
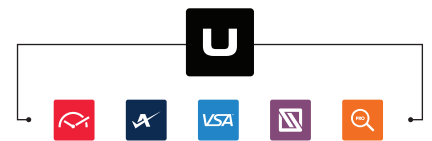

SOLUTION

INTEGRATIONS

Most software integrations are built with short-term priorities in mind. However, our integrations are built to last. They're much smarter and designed to save time on the repetitive tasks that consume much of your day.

Own the core technology and integrate through a proprietary integrations hub to get **IT Complete** workflow efficiencies running for the long term.
